Centre Of Parentage Dispute

Centre of an amazing parentage tangle, this bright-eyed, 10-week-old boy lay in a St. Louis courtroom and gazed wonderingly at unweaned Anna, Ward of Newton, Pa., claimed him as her own, declaring he had been literally given into the custody of Mrs. Neile Murch of St. Louis. Mrs. Murch recently was acquitted in the Dr. Isaac Kelly kidnapping. The judge deferred decision.

WEATHER MAY GET Milder

Chills and more chills. The weather man in a friendly mood and the probabilities are for milder, though cloudier weather. The good citizens on their way to work on Tuesday stopped out briskly, snatched one another on the shoulder and remarked how fine was the day—just another indication of how vulnerable all are to fluctuations of the mercury.

On Monday the temperature grew milder and the highest reached was 14 at 3 p.m. By 1 a.m. the mercury had dropped to nine above. The mean temperature on Monday was 4.5 as against 23 above for the same day of the previous year.

The sun on Wednesday will rise at 6:10 a.m. and will set at 4:30 p.m. From 3 p.m. until midnight on Monday readings were, all above zero: 14, 13, 9, 8, 7, 6, 6, 6, 8, and from 1 a.m. until 9 a.m. 9, 10, 12, 15, 16, 17, 18, 21.

DIES DIGGING GRAVE ANOTHER WAS TO FILL

LENEXA, Kan., Nov. 18.—Walter Cole, 45, a sexton, died in a grave he dug for another. Fearful he would not finish the grave in time for a scheduled burial, he worked furiously until he threw out the last shovelful of dirt and died of heart disease, induced by over exertion.

Electric fans increase a room's temperature instead of lowering it. Body temperature being higher than the air, relief is felt when a breeze strikes it and carries away heat from the body.

PRINCELY GEMS STILL SOUGHT

MONTREAL, Nov. 18.—Belief that \$750 in jewels stolen from Prince Juan De Bourbon and Princess Marie Mercedes, Nov. 4, while in a Toronto hotel, are in Montreal, has started an intensive investigation by city police and private detective agencies.

Police are working on the theory, they said today, that international gem thieves followed the Spanish Prince and his wife from Montreal to Toronto and perpetrated the theft when opportunity arose.

south side police station, that a young girl had been held up and robbed of her purse containing some \$24 and a little change. Detectives Riddle and Kinney took a patrol car and drove to the scene of the attack, and upon reaching the high level bridge the detectives sighted the suspect approaching. They turned their vehicle in the middle of the bridge, and the chase was on.

LIVELY CHASE

The escaping bandits noticed the police car just about the same time as they were observed by the police and they increased their speed to 60 miles an hour in an effort to shoo off the law. But the pursuers kept right behind during the five-mile chase through the city streets, firing six shots and were but few yards behind the desperadoes when the merry chase came to an abrupt halt at the top of the 108 steel bridge railing just south of the C.P.R. station.

Fred Mino, driver of the stolen car, which belongs to Irving Kline and which was stolen from the back of his store earlier in the evening, was captured after a short struggle, but his unidentified accomplice managed to escape when he leaped from the car, scaled the railing, travelling hand-over-hand along the deck for several feet, and reeled down the railway tracks successfully eluding the police after a chase through hot cars lined along the freight sheds.

Police however have a good description of Mino's accomplice. When taken into custody, Mino was in possession of the money believed to be that of the young South Side woman whom he and his accomplice attacked near 100 street on 49 avenue. They also had a syphon hose and gasoline can.

GIRL KNOCKED DOWN

It is alleged that Mino and his companion were coming south on 100 street, and upon noticing the young girl, stopped the car and attacked her. A struggle between the young woman and the bandits ensued. She was knocked to the ground. "The attacker grabbed the purse of his victim but she held on grimly and he dragged her for several feet in the snow before compelling her to loosen her hold. He then made for the car, but his victim raced towards the car and took down the license number, 31047, which she reported to the police. It was through this that the detectives were able to identify the escaping car."

HAD SIMILAR MONEY

Two \$10 bills, four one's, and a couple of "rain checks" as well as an unknown amount of change, was the haul of the bandits, and Mino is alleged to have been in the possession of the money when searched at the police station.

"How the escaping bandits managed to avert hitting someone descending will always remain a mystery to me," stated Detective Ed. Kinney at police headquarters. "As that they were sure lucky that they didn't kill themselves when they reached the railing at the station, as had the car moved another foot or two it would have toppled down some 30 feet to the sidewalk below."

CAR BANGLING

The front portion of the car was clanging on a balance over the side of the rail projecting out on Jasper avenue. It was badly damaged. The police car also received a "beat" when the car hit into the telephone pole as they attempted to stop.

NEWTONS REVEAL CRIME

NEWTON, TEXAS, Nov. 19.—Sheriff T. S. Hughes said last night a third man had confessed he took part in the shooting and burial alive of Richard Ridgeway, 40, the victim in the feud-ridden Scrapin' Valley. The man, whose name he would not reveal, allegedly corroborated the statement of Peter Wells, the victim's father. The late Peter Wells shot Ridgeway and buried him while he still breathed in a crude grave in the middle of a highway.

Wells and his brother-in-law, Albert Williams, were charged with murder for allegedly aiding in the shooting. In a statement, Sheriff Hughes said that the skeleton of Ridgeway was found in the middle of a highway. The skeleton was found in the middle of a highway. WHEAT PRICES QUIET, STEADY

WINNIPEG, Nov. 19.—Wheat prices quietly steady on the Winnipeg

lower. The November future stood at 83½, December 84½, May and July 89 cents.

Trading, heavier than has been the case in the past few days, was well supported by export sales of Canadian wheat. It was estimated at 300,000 bushels. Exports included quantities of grade wheat from Montreal and

grains spreads in most grades at fractionally improved. Coarse prices were quietly firm.

JUNIORS FEATURE

After the two senior midweek and juvenile training sessions, the juniors took the ice with their juniors, number one to six.

Barney Stanley of hockey fame both here and in the National league addressed the juveniles and stressed the value of team play.
